DETAILED ACTION

1. Applicant's papers filed on 7/14/2005 have been received and entered. Claims 1, 3, 8, 11, 18 have been amended. Claims 7 and 17 have been cancelled. Claims 1-6, 8-16 and 18-22 are pending in the application.
2. Applicant's remarks have been considered.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 1-6, 8-16 and 18-22 are allowable over the prior art of record because none of the prior art discloses the claimed combination as recited, particularly require such in combination with other limitations of the claim: using the selected charge depleted threshold value to present information to a user of the device to indicate that the portable power source should be recharged, wherein a first indicator is used to present the information to the user when the selected charge depleted threshold value is the first charge depleted threshold value and a second indicator is used to present the information to the user when the selected charge depleted threshold value is the second charge depleted threshold value (claim 1); a first user-perceivable indicator that corresponds to a level of charge depletion of the portable power source as compares to the first charge depleted threshold value; and a second user-perceivable indicator that corresponds to a level of charge depletion of the portable power source as compares to the second charge depleted threshold value (claim 11).

The dependent claims 2-6, 8-10, 12-16, and 18- 22 are allowed based on the allowable of the parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
